# DSL Cremon Handle 180° for sliding profiles with integrated super KIT

the keyword ... to your safety!

# Advantages of DSL 180°

DSL 180° allows the door to open fully while it prevents damage to the frame

Solid carrier without connection or screws. Minimizes the possibility of unscrewing.

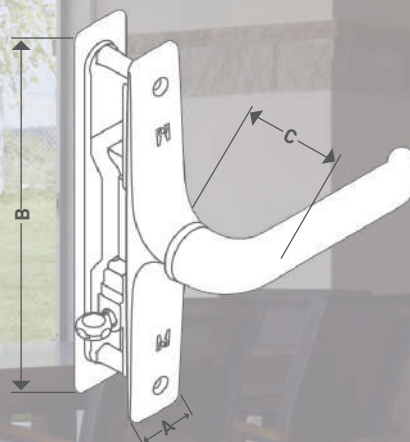

There is no need of rotating the cremon handle from right to left. It can be installed without rotating the carrier.

Suitable for all sash profiles with width from 30mm to 42mm. Super Kit: INOX SS 304 parts (striking plate and dead bolt)

DSL 180° can easily replace DSL 90°:  
1. Without extra holes on the sash.  
2. Without changing the location of striking plate.
